NEWS AND COMMENTS.

Benjamin Butler has been stumping Michigan during the past week.

Prince will have a majority over both his opponents in Bernalillo county.

The democrats who are crying for a change can do themselves bonor and

Virginia is suffering greatly from a ruining wells and streams.

business is made in the report of the ex- that county this year. changes of twenty-four cities in this country for last week which is stated at \$805,000,000 being a decrease of twentyfour per cent, as compared with the corresponding week of last year.

speedy suppression of the traffic in Dan approached Mr. Megsoul and said: alcoholic drinks.

In Bermiillo county the Rynerson supporters have united with the democrats on a county ticket giving the ticket in the field. This shows who lut, tut." are the bolters from the republican fold.

Brick Promeroy has been indicted by the grand jury in Colorado for perjury and obtaining money under false pretenses. Both the charges grew out of his connection with the Atlantic and Pacific tunnel scheme. Brick is a fair sample of the stuff that democrat workers are made of.

Frank Chavez contracted to vote Valencia county solid for Rynerson, but it appears now that he has run against opposition in the shape of Amado Chavez and other influental men who are samest Prince supporters. Valencia will without doubt give an honest vote this year and the majoriy of it will count for Judge Prince.

The natural fall of the water from the source to the city is sufficient to throw a stream over any building in town. No pumping machinery is the way here comes the constable." necessary and the service can be maintained as cheaply as at any place in the United States.

The Las Vegas Daily Chronicle is a new and neat publication which gives a hearty support to Judge Prince. It is printed in English and Spanish. J. H. Koolger is the editor and with this medium is doing more service for the republican cause it New Mexico than all the rest of the daily press of the territory. When "the war is over" the Chronicle will continue as it already is the leading republican paper of San Miguel county.

People who find themselves unable to attend the World's fair at New Orleans next winter may find consolation STATIONERY in the prospect afforded of another op portunity to attend a World's exposition at St. Louis in 1802, the five hundredth anniversary of the discovery of appointed committees to memoralize congress for an appropriation to assist in covering expenses and to do their necessary preliminary work, and the prospect of the scheme proving successful and the fair being held is good.

The issue of honesty and reform should rise above politics in county Two years more of the corrupt rule will be established. County warrants are worth but little and their value will decrease so long as the present threyish county rule continues. The sheriff and county commissioners are robbing to the buyers. the people and will continue the process so long as they or their friends are sidered the worst ruled county in New

A Thousand A Year Will Do.

"Resste, dear child," my father said, "Fred has just a thousand a year; And rents are to pay and markets to make, And how will you dress, my dear?" And I said to my heart: "That's true,

My mother sighed in her stately way: "His family are poor and plain; No friends, no wealthy connections; You have nothing at all to gain." But I said to myself. "It's Fred, And nobody else I'll wed."

"Why, Bessie! What, marry Fred Gray?" The man isn't in society; He is loving and tender and true." And even my kind brother Jack

Thought "Fred at the desk very well :

But dreadfully slow, without any 'go,'

Fit only to buy and sell."

My friend Cecilie was dreadfully shocked-

But I said to my heart: "Never mind, He inclever and bonest and kind." And tny beart said: Marry the man you love A thousand a year will do; And he len't slow, and he's plenty of 'go,' And he's stylish enough for you;

I married my love and a thousand a year And we're happy and rich to-day; To his highest aim the man I love Has gallantly fought his way. If hearts have love, and brave and true,

You know very well, when all is told,

They'll find a thousand a year will do How To Handle A Gun.

take both guns to the nearest creek and shot in after them. If you have any home as fast as ever you can. If you are under eighteen years the chances will get both legs and a section of your body filled to the brim with bird shot before you reach home.

"How ?" Goodness only knows, my son, I don't. try up here is producing wood flour, a I have often wondered how it did bapkind of cousin to wood pulp. It was pen, but I never could ascertain. A Rustless Stove.

A young couple strolling through the exposition building, balted in view of a young man whe, with his sleeves rolled up, was busily engaged in wash-

ing a stove with a brush,soap, and water. "That poor fellow will about get discharged this afternoon. Isn't it a pity he knows no better?" solloquised the

But that young fellow knew his business. There isn't enough water in the town to make the stove he was working on rusty. That kitchen ornament had been through the process which is creating a revolution in the iron trade east, and is now a specimen of that metal denominated as rustless. This process is not precisely new in New York, and after a couple of years experimenting it is now daily in use for the treatment of hollow-ware, machine fittings, and, in fact, can be utilized in any branch of the manufacture of iron. The rustless surface is formed by the conversion of the iron into a magnetic oxide by its exposure to the action of carbonic oxide and carbonic acid gasses. The method is inexpensive, and costs less than galvanizing, which is not infallible aginst rust. Specimens of iron that have lain for months in water are shown at this exhibit, which is of special interest to builders.

A Masterly Retreat.

Women are skillful, "Who is that horrid whiskey bloat?" asked a lady of an acquaintance, while they stood view-The first-thing you do, when you go ing the guests at a fashionable recepout gunning with another boy, is to tion. Throw the powder and geance in the eyes of the insulted lady. "Several nights ago a friend made a matches about your clothes throw them similar remark about my husband, and in also. Then start at once and go I became very angry. I declared that it would anger any woman, but my friend said that you having the best husband are, with these precautions, that you in the world, would not care, and I wagered a pair of gloves that you would; but you see I have lost. I hear your husband is spoken of as an available candidate for governor! How clever be must be!"-Arkansas Traveler.

The progress which is constantly being made in providing for the comfort and even luxury of passengers by rail is well illustrated in a new car built at the Altoona shops of the Pennsylvania Railroad. It is called a "baywindow parlor car," and the details were designed and patented by Mr. Bruce Prince, an architect of New York. The sides of the car form a series of bay-windows-the incline of the sides of the bay being, of course only slight. This arrangement allows of excellent views from the interior, as the passenger can look nearly straight

"Do you think his disease incurable, doctor?" "He is a poor man isu't he?" won't do him any good now."
